

Unless otherwise specified, all information applies to A2 share class in the Fund's base currency only as of the month end. Performance, Portfolio Breakdowns and Characteristics, and Net Assets as at 29-Feb-2024. All other data as at 07-Mar-2024.

IMPORTANT:

- The Fund's investments in equities could incur significant losses due to higher fluctuation of equity values. The Fund's investments are concentrated in the alternative energy and energy technologies sectors. This may result in greater volatility than more broad-based investments.
- The Fund is subject to currency risk, emerging market risk, foreign investments restrictions risk, small-cap companies' volatility and liquidity risks, contingent convertible bonds risk, risk associated with investing in sustainable themes or sectors, ESG investment policy risk, and currency conversion risk including Renminbi denominated Classes.
- **Class 10 Shares** pay dividends gross of expenses and/or from capital at the Directors' discretion. Paying dividends gross of expenses may result in more income being available for distribution; however these shares may effectively pay dividends from capital – may amount to a partial return or withdrawal of an investor's original investment or capital gains. All declared dividends result in an immediate reduction in the NAV price of the share class on the ex-dividend date.
- The Fund may use derivatives for hedging and for investment purposes. However, usage for investment purposes will not be extensive. The Fund may suffer losses from its derivatives usage.
- The value of the Fund can be volatile and can go down substantially within a short period of time. It is possible that a certain amount of your investment could be lost.
- Investors should not make investment decisions based on this document alone. Investors should refer to the Prospectus and Key Facts Statement for details including risk factors.

INVESTMENT OBJECTIVE

The Sustainable Energy Fund seeks to maximise total return. The Fund invests globally at least 70% of its total assets in the equity securities of sustainable energy companies. Sustainable energy companies are those which are engaged in alternative energy and energy technologies including: renewable energy technology; renewable energy developers; alternative fuels; energy efficiency; enabling energy and infrastructure. The Fund will not invest in companies that are classified in the following sectors (as defined by Global Industry Classification Standard): coal and consumables; oil and gas exploration and production; and integrated oil and gas.

GROWTH OF 10,000 FOR PAST 10 YEARS

These figures show as a NAV change of the Fund based on a hypothetical \$10,000 investment in the share class.

CUMULATIVE & ANNUALISED PERFORMANCE (%)

	3 mths	6 mths	YTD	1 Year	2 Years	3 Years	5 Years	Since Launch
Fund (A2 U.S. Dollar)	3.29	-1.27	-4.78	0.80	1.18	0.93	76.81	43.92

Past performance is not a reliable indicator of current or future performance and should not be the sole factor of consideration when selecting a product or strategy. Investors may not get back the full amount invested. Performance is shown on a Net Asset Value (NAV) basis with gross income reinvested, net of fees. Performance is calculated in the relevant share class currency, including ongoing charges and taxes and excluding subscription and redemption fees, if applicable. Benchmark performance displayed in denominated currency and for comparative purpose only.

CALENDAR YEAR PERFORMANCE (%)

	2023	2022	2021	2020	2019
Fund (A2 U.S. Dollar)	12.76	-18.32	15.73	50.42	30.21

Performance is calculated on a Net Asset Value (NAV) basis, with income reinvested, net of fees. Performance is calculated in the Fund's base currency, including ongoing charges and taxes and excluding subscription and redemption fees, if applicable. SECTOR BREAKDOWN (%)

Negative weightings may result from specific circumstances (including timing differences between trade and settlement dates of securities purchased by the funds) and/or the use of certain financial instruments, including derivatives, which may be used to gain or reduce market exposure and/or risk management. Allocations are subject to change. Due to rounding, the total may not be equal to 100 %.

FUND FEATURES

- Global equity strategy investing in companies that contribute to, and benefit from, the transition to a low carbon economy.
- Focus on sustainable business models, attractive valuation and strong management teams
- Regular meetings with management, attendance at conferences and site visits to complement at-the-desk analysis

GEOGRAPHIC BREAKDOWN (%)

Geographic exposure relates principally to the domicile of the issuers of the securities held in the product, added together and then expressed as a percentage of the product's total holdings. However, in some instances it can reflect the geography where the issuer of the securities carries out much of their business. "Others" excluded from the chart above.

MARKET CAPITALISATION (%)

Allocations are subject to change. Due to rounding, the total may not be equal to 100%.

SUSTAINABILITY CHARACTERISTICS

Sustainability Characteristics can help investors integrate non-financial, sustainability considerations into their investment process. These metrics enable investors to evaluate funds based on their environmental, social, and governance (ESG) risks and opportunities. This analysis can provide insight into the effective management and long-term financial prospects of a fund.

The metrics below have been provided for transparency and informational purposes only. The existence of an ESG rating is not indicative of how or whether ESG factors will be integrated into a fund. The metrics are based on MSCI ESG Fund Ratings and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

MSCI ESG Fund Rating (AAA-CCC)	AA	MSCI ESG Quality Score (0-10)	7.87
MSCI ESG Quality Score - Peer Percentile	97.63%	MSCI ESG % Coverage	98.49%
Fund Lipper Global Classification	Equity Theme - Alternative Energy	MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES)	522.85
Funds in Peer Group	253		

All data is from MSCI ESG Fund Ratings as of **19 Jan 2024**, based on holdings as of **31 Aug 2023**. As such, the fund's sustainable characteristics may differ from MSCI ESG Fund Ratings from time to time.

To be included in MSCI ESG Fund Ratings, 65% (or 50% for bond funds and money market funds) of the fund's gross weight must come from securities with ESG coverage by MSCI ESG Research (certain cash positions and other asset types deemed not relevant for ESG analysis by MSCI are removed prior to calculating a fund's gross weight; the absolute values of short positions are included but treated as uncovered), the fund's holdings date must be less than one year old, and the fund must have at least ten securities.

ESG GLOSSARY:

MSCI ESG Fund Rating (AAA-CCC): The MSCI ESG Rating is calculated as a direct mapping of ESG Quality Scores to letter rating categories (e.g. AAA = 8.6-10). The ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC).

MSCI ESG Quality Score - Peer Percentile: The fund's ESG Percentile compared to its Lipper peer group.

Fund Lipper Global Classification: The fund peer group as defined by the Lipper Global Classification.

Funds in Peer Group: The number of funds from the relevant Lipper Global Classification peer group that are also in ESG coverage.

MSCI ESG Quality Score (0-10): The MSCI ESG Quality Score (0 - 10) for funds is calculated using the weighted average of the ESG scores of fund holdings. MSCI rates underlying holdings according to their exposure to industry specific ESG risks and their ability to manage those risks relative to peers.

MSCI ESG % Coverage: Percentage of the fund's holdings for which the MSCI ESG ratings data is available. The MSCI ESG Fund Rating, MSCI ESG Quality Score and MSCI ESG Quality Score – Peer Percentile metrics are displayed for funds with at least 65% coverage (or 50% for bond funds and money market funds).

MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES): Measures a fund's exposure to carbon intensive companies. This figure represents the estimated greenhouse gas emissions per \$1 million in sales across the fund's holdings. This allows for comparisons between funds of different sizes.

MSCI Weighted Average Carbon Intensity % Coverage: Percentage of the fund's holdings for which MSCI Carbon Intensity data is available. The MSCI Weighted Average Carbon Intensity metric is displayed for funds with any coverage. Funds with low coverage may not fully represent the fund's carbon characteristics given the lack of coverage.

Certain information contained herein (the "Information") has been provided by MSCI ESG Research LLC, a RIA under the Investment Advisers Act of 1940, and may include data from its affiliates (including MSCI Inc. and its subsidiaries ("MSCI")), or third party suppliers (each an "Information Provider"), and it may not be reproduced or disseminated in whole or in part without prior written permission. On 25 March 2019 the Fund renamed from BlackRock New Energy Fund to BlackRock Sustainable Energy Fund.

Unless otherwise specified, all information as of the month end. Sources: BlackRock and Morningstar. Performance is shown as of the month end in share class currency on a NAV to NAV price basis with income reinvested, net of fees. The above Fund data is for information only and does not constitute an offer or invitation to anyone to invest in any BlackRock Global Funds (BGF) and has not been prepared in connection with any such offer. BGF is an open-ended investment company established in Luxembourg which is available for sale in certain jurisdictions only. BGF is not available for sale in the U.S. or to U.S. persons. Product information concerning BGF should not be published in the U.S. Investment involves risk. Past performance is not necessarily a guide to future performance or returns. The value of investments and the income from them can fluctuate and is not guaranteed. Rates of exchange may cause the value of investments to go up or down. Investors may not get back the amount they invest. Individual stock price/figure does not represent the return of the Fund. The investment returns are denominated in share class dealing currency, which may be a foreign currency. If so, US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar/foreign currency exchange rate. For Hong Kong investors, please refer to the BGF offering documents for details, including risk factors. Issued by BlackRock Asset Management North Asia Limited.
