

SICAV Range

JPMorgan Funds - Global Natural Resources Fund

- The Fund invests primarily in natural resources companies, globally.
- The Fund is therefore exposed to risks related to equity, emerging markets, concentration, smaller companies, natural resources stock, currency, derivative, hedging and class currency.
- The Fund may at its discretion pay dividends out of capital. The Fund may also at its discretion pay dividends out of gross income while charging all or part of the Fund's fees and expenses to the capital of the Fund, resulting in an increase in distributable amount for the payment of dividends and therefore, effectively paying dividends out of realised, unrealised capital gains or capital. Investors should note that, share classes of the Fund which pay dividends may distribute not only investment income, but also realised and unrealised capital gains or capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any dividend payments, irrespective of whether such payment is made up or effectively made up out of income, realised and unrealised capital gains or capital, may result in an immediate reduction of the net asset value per share. Also, a positive distribution yield does not imply a positive return on the total investment.
- Investors may be subject to substantial losses.
- Investors should not solely rely on this document to make any investment decision.

Fund overview

Investment objective

To provide long-term capital growth by investing primarily in natural resources companies, globally.

JPMorgan Funds - Global Natural Resources Fund

Objective and Investment Strategy

To provide long-term capital growth by investing primarily in natural resources companies, globally. At least 67% of the Fund's assets (excluding Ancillary Liquid Assets) will be invested in equity securities of natural resources companies, globally. Natural resources companies are those which are engaged in the exploration for and the development, refinement, production and marketing of natural resources and their secondary products.

The Fund will have exposure to small capitalisation companies and may invest in emerging markets.

The Fund is not subject to any limitation on the market capitalisation of the companies in which it may invest.

The Fund may invest up to 20% of net assets in Ancillary Liquid Assets and up to 20% of assets in Deposits with Credit Institutions, money market instruments and money market funds for managing cash subscriptions and redemptions as well as current and exceptional payments.

The Fund's net derivative exposure may be up to 50% of the Fund's net asset value.

The Investment Manager seeks to achieve the stated objectives. There can be no guarantee the objectives will be met. Investment involves risk. Past performance is not indicative of future performance. The above contains only partial information of the Fund's objective and investment strategy. Please refer to the offering document(s) for details, including the risk factors.
