

Important Notes

1. The Fund invests primarily in companies that are involved or derive benefit from Next Generation Connectivity, and therefore is subject to concentration risk in industries that offer exposure to the development and enhancement of mobile internet and 5G connectivity. The fund is also subject to risks relevant to such industry, which could be driven by factors such as growth volatility, rapidly changing market conditions and competitions, regulation, intellectual properties, cyber security, government intervention and political risks.
2. Investment in small or medium-sized companies is subject to higher liquidity risk and higher volatility.
3. The Fund invests in emerging markets and therefore is subject to emerging market and concentration risks. Emerging markets may be subject to additional risks due to more uncertainties relating to their social, economic and political factors. These factors may affect the value of the underlying securities. The Fund is also subject to currency, currency hedging and equity risks. Investment may be subject to risks relevant to their respective regions or markets such as Eurozone stability and Stock Connects.
4. The Fund may use financial derivative instruments ("FDI") for hedging, efficient portfolio management and/or investment purposes, and therefore may be subject to higher counterparty, liquidity, valuation, volatility and over-the-counter transaction risks, which may result in a significant loss of the Fund.
5. In respect of the distributing shares, the distribution rate is not guaranteed. The Fund may at its discretion pay dividends out of the capital of the Fund. Dividends paid out of capital amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Such dividends may result in an immediate decrease in the net asset value of the relevant shares.
6. The Fund may utilize securities lending agreements, repurchase agreements and reverse repurchase agreements, and is therefore subject to the risk that the collateral value may fall below that of securities lent out.
7. Investors should not solely rely on this document to make any investment decision. Please refer to the Prospectus and Key Fact Statement for details including the risk factors before making any investment decision.

INVESTMENT OBJECTIVE & STRATEGY

The investment objective of the Fund is to seek to achieve a target average return of 3-5% over the Benchmark (MSCI All-Country World Index (ACWI) (Total Return, Net of Tax, USD)) before fees over a market cycle (typically 3 years) from investing primarily in a portfolio of global equity holdings, focusing on companies that are involved or derive benefit from Next Generation Connectivity.
