The Portfolio is exposed to risks associated with financial derivative instruments which may lead to a significant loss by the Portfolio. \* The Portfolio is exposed to risks associated with currency, concentration, technology sector, equity market, small-capitalisation / mid-capitalisation companies, regulatory/exchanges requirements/policies of the equity market in emerging markets, investments in the PRC generally, investment made through QFI Program, Stock Connect, RMB currency and conversion, sustainability risk, depositary receipts, Money Market Instruments, liquidity and counterparty. \* Material losses to the Portfolio may arise as a result of human error, system and/or process failures, inadequate procedures or controls. \* Insolvency, breaches of duty of care or misconduct of a custodian or sub-custodian responsible for the safekeeping of the Portfolio's assets can result in loss to the Portfolio.

### Past performance does not guarantee future results, which may vary.

(a) We identify two broad categories of funds to help investors think about how to construct their overall investment portfolio. We describe the following as **"Core"**: (A) Equity funds with a global investment remit or those mainly focused on US and European markets, given the size and transparency of these markets. (B) Fixed income funds with a global investment remit or those mainly focused on US, European and UK markets and invest predominantly in investment grade debt, including government. (C) Multi asset funds with a multi asset benchmark. All other funds we describe as **"Complements"**. Both Core and Complement funds can vary in risk level and those terms are not meant to indicate the risk level of the funds. There is no guarantee that these objectives will be met.

For regionally focused investment portfolios we understand that the categorisation may be different from the perspective of different investors. **Consult your financial adviser before investing to help determine if an investment in this fund and the amount of the investment would be suitable.**
